Job Description:

Job Purpose:

The Production Specialist is responsible for manufacturing high-quality products safely and efficiently in accordance with company procedures, engineering specifications, and customer requirements. This role supports a variety of production and assembly activities while contributing to quality, continuous improvement, and on-time delivery objectives. Success in this role requires a team-oriented mindset, adaptability, and the flexibility to support changing products, projects, and production priorities while working collaboratively to meet customer, quality, and delivery expectations.

Kennon is committed to developing its workforce and will train candidates who demonstrate a strong work ethic, dependability, attention to detail, and a willingness to learn.

Key Responsibilities:

- Operate industrial sewing machines and equipment to prepare and assemble a wide range of products
- Read and interpret Production Orders, drawings, quality control sheets and other production documentation
- Follow work instructions to produce conforming and quality products
- Inspect materials and finished products to ensure compliance with requirements and quality standards
- Perform machine setup and maintenance procedures
- Maintain production schedule as outlined by Production Supervisors
- Report equipment issues, defects, non-conformances and materials shortages to Production Supervisors
- Maintain a clean and organized workstation
- Work effectively as part of a team - Collaborate with cross-functional teams including quality, engineering, and maintenance
- Operate and/or assist with CNC equipment or automated manufacturing equipment (e.g., CNC cutters, automated fabric cutters, pattern cutters, or light machining centers) as required by production needs
- Support multiple workstations or processes in a flexible manufacturing environment (cross-training expected).
- Other tasks as assigned
- Exemplify Kennon’s core values: Integrity, Caring, Responsive, Daring

1100 Hi Tech Dr | Sheridan, WY 82801 | P 307.674.6498 | F 307.674.7182

Minimum Qualifications:

- Ability to follow written and verbal instructions
- Basic math and measurement skills
- Strong attention to detail and commitment to quality
- Ability to work in a team-oriented production environment and communicate effectively
- Willingness to learn and be trained on industrial sewing machines, CNC, and other manufacturing equipment
- Reliable attendance and dependability

Preferred Qualifications:

- Prior experience in a manufacturing or production environment.
- Experience operating industrial sewing machines or similar equipment.
- Exposure to CNC or automated manufacturing equipment.
- Familiarity with basic hand tools or measurement tools (e.g., tape measures, calipers).
- Experience working in a regulated or quality-driven environment (e.g., ISO 9001, AS9100).
- Basic mechanical aptitude or troubleshooting experience.

Physical Requirements:

- Ability to stand and walk for extended periods.
- Frequent use of hands for assembly and production tasks.
- Ability to lift up to 40 pounds occasionally (from floor to table)
- Ability to bend, reach, kneel, and perform repetitive motions.
- Visual ability to inspect small parts and read technical documentation.

Working Conditions:

- Manufacturing environment with exposure to machinery, noise, and production equipment.
- Use of personal protective equipment as required.
- May require overtime based on production demands.

About Kennon:

Kennon Products has a forty-year history of proudly designing and manufacturing quality products that protect high value assets. Founded in 1984 to provide general aviation products, Kennon has grown into a multi-faceted company with international sales. We lead with cutting edge research and development, utilization of advanced materials and composites, and delivery of diverse product lines that include preservation of private, commercial, and military aircraft integrity; safety in behavioral health; and life-protection for our service men and women. Our success has come through consistently providing innovation, ensuring superior design, and maintaining our commitment to quality. Together, we deliver innovative solutions to protect what matters most.
